Q2 2026

Down Payment Matching Program

Enable targeted down payment savings incentives to catalyze specific households to move closer to sustainable homeownership

Program design

How it works: Foundation + Foyer launch the HomeMatch Fund providing a 1:1 match on the first $500 - $1,500 saved toward homeownership.

Match accrual: Match builds monthly as participants save for their down payment through Foyer's App

Restricted use: Match funds can only be applied to eligible homeownership costs: down payment or closing costs.

Participant experience: Savers track progress toward their goal and see earned match funds reflected in real time within Foyer

Minimum size and budget

Participants	**100-250**
Match pool	**$50,000–$250,000**
Admin budget	**$10,000–$25,000**
Duration	**6-months**

What we will measure

- Savings rate & consistency vs. baseline
- Match utilization & completion rate
- Time to down payment readiness

Foyer's role

Product: Provide App experience, savings accounts, goal tracking, match visualization, and restricted-use enforcement for match funds

Compliance: Handle all reporting, participant data security, and regulatory requirements.

Marketing: Drive participant acquisition through existing direct-to-consumer channels and in-app onboarding.

Engagement: Deliver behavioral nudges and in-app education to encourage consistent saving habits.

Measurement: Provide progress reports during the pilot and a comprehensive post-pilot outcomes report with baseline comparisons.

Partner's role

Funding: Capitalize the matching fund pool and define eligibility criteria for participants.

Distribution: Promote the pilot through local nonprofits, employers, and housing organizations to support recruitment.

Oversight: Dedicate one stakeholder as point of contact. Align pilot goals with broader affordability initiatives and use learnings to inform future grantmaking.

Q2 2026

CRA Program Overview

Foyer partners with banks to support CRA performance across Lending, Investment, and Service Tests, while building a high-quality, future mortgage pipeline.

Foyer enables banks to:

- Reach and engage **LMI households earlier in the homeownership journey**
- Deploy capital into **trackable, outcome-driven programs**
- Generate **CRA-qualifying loans, investments, and services** with clear attribution and reporting

Foyer CRA Benefits

Lending Test

Expanding Access to LMI Mortgage Originations

Foyer develops a pipeline of credit-ready, savings-qualified borrowers by:

- Engaging **LMI consumers at the down payment savings stage**
- Tracking **home purchase intent and readiness signals**
- Delivering **pre-qualified, high-intent applicants** into the bank's mortgage funnel
- Increased volume of **LMI and first-time homebuyer originations**
- Improved pull-through rates due to **early engagement and preparation**

Investment Test

Targeted, Outcome-Oriented Capital Deployment

Foyer enables banks to structure investments that directly support homeownership outcomes, including:

- **Matched savings programs** for LMI customers (down payment assistance)
- Deposits and programmatic funding tied to **community development objectives**
- Scalable vehicles aligned with **affordable housing and wealth-building goals**
- Qualifying **community development investments**
- Clear linkage between capital deployed and **home purchase outcomes**

Service Test

Scalable Financial Education & Access

Foyer extends a bank's service delivery through:

- **Digital financial education** (credit readiness, budgeting, homebuying)
- Tools that improve **financial capability and mortgage readiness**
- Access to structured pathways for **underserved and LMI communities**
- Enhanced delivery of **retail banking services in LMI communities**
- Scalable, technology-enabled **community development services**

Q2 2026

CRA Program Overview

Partnership Structures

Co-Branded Homeownership Savings Program

- Bank provides insured deposit accounts
- Foyer delivers the **user experience, engagement, and savings infrastructure**
- Optional **matching incentives** targeted to LMI segments

Mortgage Pipeline Integration

- Seamless handoff of **qualified, intent-rich borrowers**
- Integration with bank origination channels
- Full-funnel visibility from **first deposit → loan closing**

Measurement, Reporting & Compliance

Foyer is designed with CRA evaluation in mind, providing:

- **LMI qualification and income tracking**
- Geographic reporting aligned to **assessment areas**
- Program-level metrics (e.g., savings growth, readiness, conversion)
- **Audit-ready documentation** to support CRA examinations

Pilot & Implementation

Foyer supports rapid deployment with a typical pilot structure:

1. Define **target geographies and LMI segments**
2. Launch a **matched savings or co-branded program**
3. Track engagement, savings progression, and loan outcomes
4. Scale based on **measured CRA impact and ROI**

Typical timeline: 90 days to launch

About Foyer

Foyer is a financial technology platform designed to expand access to homeownership by helping consumers **save, plan, and qualify for a home purchase.** Foyer engages prospective homebuyers **well before mortgage origination**, guiding them from initial savings through loan readiness.

By capturing **intent, savings behavior, and financial readiness data,** Foyer enables financial institutions to build earlier, deeper relationships with future borrowers—particularly within **low-and moderate-income (LMI) segments**.
